

HR P47c/d QP\*P 'Ill Wind' of Nicholas Megura, 334thFS 4thFG at Debden in 1943.

This is based on Chompy's brilliant HR Razorback, so enormous thanks go to him.

The skin has been made from my original profile images and uses noseart images made by the ORIGINAL artist from all those years ago, S/sgt Don Allen, a ground crewman from Debden at the time.

After researching these pilots and their AC for this series, I have now been led to making a series of P51D

Mustangs as a direct continuation of what the 4th FG flew, look out for them soon. DeanH OPB
